Chat Bot

About Us

At TIDALCHAT.COM, we help businesses communicate better with their customers through automated replies on WhatsApp.

Our smart chatbot answers customer questions instantly, giving them the information they need about your products and services with less effort from your team.

Our system automatically handles common inquiries and passes on the most important leads to your team, allowing them to focus on converting real opportunities into sales.

The chatbot is available **24/7**, providing support for any issues, questions, or guidance your customers may need.

With TIDALCHAT.COM, your team can work more efficiently, improve customer satisfaction, and grow your business by turning more leads into happy customers.
